

Photon Energy Group is a group of companies with a shared mission: making clean energy, clean water and clean environments accessible to everyone.

Photon Energy provides comprehensive solutions that support the generation of clean energy and the integration of renewables into the electrical grid. **Photon Water** offers water treatment and management solutions, and **Photon Remediation** deploys advanced technology to remove contamination from all environments.

A publicly traded company operating in over 15 countries across two continents, we combine a global outlook with localised expertise.

Since our founding in 2008, we've expanded to a team of more than 350 employees around the world. And we're committed to fostering a culture of shared values and sense of purpose as we continue to grow.

Software Engineer

Are you a backend wizard with a passion for crafting highly available, scalable, and distributed systems? As a **Software Engineer**, you will be a key member of our **Software Development** team, working alongside talented professionals to build cutting-edge applications.

Do you thrive in Agile environments, love writing clean Go code, and want to be part of a collaborative, innovative team? If so, we would like to discuss more details with you.

Key Responsibilities

- ▶ Developing high-performance software for distributed systems
- ▶ Reviewing and refining the code of fellow developers
- ▶ Preparing technical models and documentation
- ▶ Supporting new team members and knowledge-sharing
- ▶ Maintaining and optimising system operations
- ▶ Working primarily with Go, occasionally Java

Qualifications and Experience

- ▶ 3+ years of experience in backend development, microservice-based systems
- ▶ 2+ years of hands-on experience with Golang (as a SW Developer)
- ▶ Solid grasp of Agile development methodologies
- ▶ Deep understanding of the software development life cycle

- ▶ Familiarity with Jira, GitLab, Miro
- ▶ Professional experience with Docker and Kubernetes
- ▶ Basic knowledge of Java syntax
- ▶ Experience with MongoDB, TimescaleDB, Kafka, RabbitMQ, ArgoCD, and/or Jenkins is a big advantage

Our Offer

- ▶ Full-time position based on a B2B contract with the possibility of an immediate start
- ▶ Remote working model, with an office day in Poznan once every 2-3 months
- ▶ An interesting job at a fast-growing global organisation in the promising fields of renewable energy, environmental remediation and clean water technology
- ▶ Company culture built on trust and diversity

If you are interested in the position and fulfil the above requirements, please apply online or send your CV to careers@photonenergy.com.
